Combo Inverter

SINE WAVE INVERTER / UPS (COMBO)

GEEDEE's Combo inverter is also a two -in-one product (Inverter + UPS) which completely eliminates the need to have separate power back-up system for your home as well as your computer. Geedee's combo inverter is the first UPS in india to work on BSOP technology. BSOP technology ensures controlled outupt to avoid computer restarting. It also uses advanced HEXFET technology to ensure improved efficiency.

TECHNICAL SPECIFICATION:	
Input Voltage	90V to 295V
Inverter Output	220 +/- 8% V AC
Output Voltage in UPS mode	200V-240V
Output Frequency	50.0 Hz
Total Harmonic Distortion	Less than 3%
Battery Charging	SMPS Charging Technology
Voltage Control Type	Micro Digital Technology
UPS Overload	120%
Emergency off	300%
Auto reset feature (H-MODE)	5 Times
Inverter Efficiency	85% Typical
