Sinewave Inverter

SINE WAVE INVERTER / UPS

Sine wave inverters / UPS is a truly futuristic concept. This two-in-one product (Inverter + UPS) Completely eliminates the need to have separate power back-up system for your home as well as your computer. Traditionally, there are two separate power back-up system technologies. That is UPS Systems for computers and inverters for other household appliances. With the increasing number of household products & computer, it became an absolute necessity to have a single product providing power back-up to all household appliances. So sinewave inverters employed.

TECHNICAL SPECIFICATION:

Input Voltage	100v - 300v
Output on mainsmode	Same as Input
Output Voltage in UPS mode	200V-240V
Output Frequency	50Hz+/-0.1Hz
Output Waveform	Sinewave
Battery Charging Current	10A (5A - 10A adj)
Charger	SMPS Based
UPS Overload	120%
Emergency off	300%
Auto reset feature (H-MODE)	5 Times
Auto reset feature (C-MODE)	NIL

If A is a success in life, then A equals x plus y plus z. Work is x; y is play; and z is keeping your mouth shut.
